Member's Profile

The Free Trade Zone Manufacturers' Association (FTZMA) was founded in 1981 three years after the largest and first FREE TRADE ZONE was established in Katunayake. It was established with the vision of being the "One Stop Shop Service Provider" to all companies registered under the Board of Investment, whether they operate within or outside the established Free Trade Zones.

FTZMA services both foreign and local companies have established commercially viable export businesses in the various Free Trade Zones in the country thus taking advantage of incentives, infrastructure and security facilities provided by the Government through the Board of Investment(BOI).

The FTZMA was founded with the aim of fulfilling the obligations laid out in its constitution and has been instrumental in resolving various challenges faced by its member companies. The reputation of the FTZMA has grown as it has become an entity that looks after the interests of its membership. The FTZMA membership covers both apparel and non-apparel sector companies operating in 9 free trade zones as well in outside the zones.
